

Nov. 22, 2010

Dear CNSC,

Attached please find PDFs of the documents I alluded to in my last email to you, namely:

[From: Kevin Kamps <kevin@beyondnuclear.org>

Date: Mon, Nov 22, 2010 at 11:59 PM

Subject: Additional comments on Bruce Power's proposal to ship 16 steam generators from Ontario to Sweden via the Great Lakes, connecting rivers, and the Atlantic Ocean for so-called "recycling".

Those documents are:

---Kevin Kamps' oral testimony to the U.S. Department of Energy's Blue Ribbon Commission on America's Nuclear Future, dated Nov. 16, 2010 ("Kevins presentation to BRC 11 16 2010[1].pdf"; I refer you to the paragraphs on Hardened On-Site Storage, as well as Transportation);

---Coalition statement, endorsed by 168 national and grassroots environmental and public interest organizations, submitted to the BRC on Nov. 16, 2010 ("finalbrcanswers111610.pdf"; I refer you to the sections about Hardened On-Site Storage, as well as Transportation and Storage);

---Statement of Principles for Safeguarding Nuclear Waste at Reactors ("current principles and 170 signatories\_march\_24\_2010.pdf").

I ask that you recognize and accept these comments, despite their arrival after 12 midnight Eastern time, as Beyond Nuclear and Nuclear Policy Research Institute (NPRI) are one and the same national organization, with NPRI headquartered in San Francisco, California, where it is still November 22nd, 2010.

Thank you.

Sincerely,

Kevin Kamps, Beyond Nuclear (NPRI)
