

Nuclear Threats to the Great Lakes and Transition to Clean Safe Energy – International Roundtable

**Saturday, May 14, 9AM - 5 PM Henry Ford Community College
Society of Mechanical Engineers (SME) Bldg.**

5101 Evergreen Rd. Dearborn, MI – First entrance south of Ford Rd.

Scheduled speakers:

Dr. Gordon Edwards - President of the Canadian Coalition for Nuclear Responsibility will address the radioactive contamination of the Earth and its Waters - accidental or deliberate? He will also speak on reactor waste policy in Canada.

Brennain Lloyd - Community organizer with Northwatch, who has worked for more than two decades on nuclear waste issues in Canada, including those at the Bruce nuclear complex on Lake Huron, will speak on the risks of a proposed deep underground radioactive dump by Lake Huron.

Michael Keegan - Chair of Coalition for a Nuclear Free Great Lakes and Co Chair of Don't Waste Michigan will speak to why we should oppose a proposed new reactor at Monroe.

Kevin Kamps - Radioactive Waste Watchdog from Beyond Nuclear will discuss reactor waste policy in the Great Lakes and nationally, and why Davis-Besse reactor near Toledo should not be re-licensed.

Greg Laskowsky - Henry Ford Community College, Lead Instructor, Energy Technology - Energy & Technology Department will discuss the Renewable Energy Program at Henry Ford Community College.

Kathleen Law - Former Michigan legislator, who introduced the first German-style renewable energy bill in North America -and since adopted by Ontario - to address "How to Power our Grid with European-Style Renewable Energy Legislation."

Victor McManemy - Great Lakes songwriter, troubadour, historian, musician and advocate for Indigenous Peoples will perform.

The presenters will provide updates on U.S. and Canadian legislation.

**Sponsored by Sierra Club - S.E. Michigan Group, Sierra Club of Canada,
Ohio Sierra Club Nuclear Issues Committee,
and Citizens for Alternatives to Chemical Contamination**
